SUNBELT[®]
LUBRICANTS, INC.

Spirit of Excellence

Spirit of Excellence

For over 30 years,

Sunbelt Lubricants, Inc. has been listening to our customers and focusing on meeting their needs guided by our determination for excellence in all of our relationships, products and services. We have seen many people, companies, ideas and products come and go over our lifetime in the market place. What sustains us are the values we keep: honesty, integrity, great service, accountability, excellence in all we do, friendliness, and caring and respect for the individual people to whom we minister. These are the values we live by, that make our days rewarding, and our lives more fun. We truly enjoy what we do and humbly serve others in the spirit of excellence. Our reward is seeing superior value produced in the market place and manifested on the face of a satisfied business associate.

Sunbelt employs outstanding people who will always naturally strive to give our clients the very best experience with every interaction. We stand ready, willing and able to tackle your lubrication, corrosion and environmental compliance problems and provide a made-to-order solution based on advanced technology and sound engineering principles. We will go the extra mile to give our customers excellent service and build a solid relationship on great products.

At the end of the day, our values manifest themselves in the pursuit of excellence and the propagation of blessing in our lives out into the world at large. Sunbelt believes in taking care of our customers, and we want to take care of you!

Our Mission

To apply values in providing excellence in all customer, vendor and employee relationships and all products and services that we provide.

Spirit of Excellence

First, we listen. Sunbelt Lubricants, Inc. is a customer-focused specialty lubricants chemical manufacturer and distributor. From the start, we place heavy emphasis on fully understanding your needs and technical requirements to provide the best possible service level and responsiveness.

Sunbelt has over 30 years of experience in formulating and delivering a variety of specialty chemicals. After careful and attentive study of our customers' facilities and processes, Sunbelt formulates the best technologies available to deliver solutions that meet and exceed expectations.

For example, we work with your technical and production groups to improve performance in advanced lubrication properties, integration of lubrication and cleaning processes, improved environmental profile, lack of toxicity, better logistics, or whatever issues are important to you.

Above all else, Sunbelt values the people we interact with, whether our vendors, customers, agents or employees. We are interested in what your needs are, how we can serve you and what we can do to make your interaction with us a beneficial and pleasantly memorable experience for you.

Products

Sunbelt provides robust products through a combination of high quality raw materials and focus on excellent design-to-performance criteria. Additives and base stocks are carefully selected for reduced toxicity and improved environmental properties. We offer a variety of choices for the best possible performance, longevity, and your satisfaction.

Our Values

- » Safety
- » Methodology
- » Accuracy
- » Results
- » Quality
- » Excellence
- » Integrity
- » Teamwork
- » Enjoyment

Sunbelt is your specialist for industrial lubricants, oils, automotive additives and products that demand special design and environmental considerations.

Green Solutions

Sunbelt produces a variety of lubricants, cleaners, and corrosion inhibitors using raw materials predominantly from renewable, biodegradable, and inert materials.

- » Vegetable oils
- » Biodegradable synthetics
- » Esters
- » Non-toxic additives

Traditional Technologies With Low-To-No Toxicity:

Industrial Oils

Sunbelt Industrial Oils are manufactured from very high quality API Group or synthetic base oils selected to meet the demand for performance, economics, or biodegradability – and to give your products the most stable, longest life characteristically possible. Using high performance oxidation and rust corrosion inhibitors makes our products extremely resistant to oxidation, viscosity breakdown, and deposit formation, even in higher temperature applications or where systems have extra stress. The result is superb quality products you can trust to provide extra performance in your vital machine applications.

- » R&O Turbine Oils
- » Greases
- » Machine Oils
- » Industrial Gear Oils
- » Antiwear Hydraulic Oils

Corrosion Inhibitors

Indoor and outdoor protection for ferrous and nonferrous metals and additive concentrates:

- » Solvent, Oil & Water Deposited Films

Cleaning Fluids

Designed for a variety of applications:

- » Engine Cleaners & Flushes
- » Parts Cleaners
- » Specialty Solvent Cleaners
- » Industrial Floor Cleaners (metal, plastic & glass surfaces)

Metal Working Fluids

We carefully review performance requirements for worker safety profiles, ease of maintenance, finish quality, and extended sump life to deliver specialized products for metal removal, forming, finishing, and protection. Sunbelt Metal Working Fluids are uniquely designed to provide thin, tough, tenacious films that combine excellent lubrication performance with minimal cleaning demand on the finished parts. Metal surfaces are left conditioned and protected from rust and corrosion, whether it is the machine tool or the work piece. In addition, our products are pleasant to work around with the lowest possible toxicity to humans, animals and fish, thus reducing disposal costs and threats to our air, land and waters.

- » Full Synthetic & Neo-Synthetic Coolant Concentrates
- » Semi-Synthetic
- » Metal Removal Oils
- » Soluble Oils
- » Metal Conditioning
- » Metal Forming Fluids & Protecting Fluids

Specialty Chemicals

Products targeted to your specialty application:

- » Biodegradable and Traditional Low VOC Mold & Concrete Form Release Agents
- » Low & High Temperature Corrosion Inhibitors & Lubricants
- » Biodegradable Corrosion Inhibitors, Lubricants, & Cleaners
- » Gas & Diesel Fuel Conditioners and Engine Additives

Our Quality Standard

Sunbelt Lubricants will meet or exceed customer expectations through conformance to measurable standards, continuous improvement and servant attitude.

Services

Sunbelt Lubricants offers extra products and services that provide added value for our customers.

Custom Formulation Services

- » Private Label
- » Short-Run Bottling
- » Brand Development
- » Label Design
- » Product Information
- » Order Fulfillment

Contract Manufacture / Toll Blending

- » Large volume capacity to manufacture your formula under strict quality control procedures with excellent service

Energy Reduction

- » Fuel Additives - Reduce fuel consumption and reduce emissions
- » Industrial Oils - Friction modifiers, reduced energy demand

Market & Product Analysis

- » Extensive in-house technology and experience for market and production determination
- » Product development services
- » Laboratory facilities, experience and technical expertise translate lubricant or application requirements into a cost-effective, high-performance chemical product or system

Sunbelt's Industrial Oils are used in:

- » Power Generation
- » Transportation Turbines Equipment
- » Metal Processing
- » Heavy Industrial
- » Plant Power Equipment
- » Mineral Processing
- » Plastics Manufacturing
- » Plant Machines
- » Building Materials
- » Lumber Processing
- » Manufacturing Equipment

Sunbelt's Metalworking Fluids are used to produce:

- » Automotive Parts
- » Deep Drawn Metal Cans
- » Industrial Assemblies
- » Metal Building Materials
- » Screw Machine Parts
- » Metal Stamping
- » Roll Formed Construction Materials
- » Re-manufactured Industrial Tool

INNOVATIVE PERFORMANCE TECHNOLOGIES

We guarantee that our products are excellent for their intended uses. If for any reason you are unsatisfied with performance, you may return the unused product, with a letter explaining your dissatisfaction, for a full credit on the product. We do not accept responsibility for abuse, misused, or misapplication of our products or for any damage caused thereby. Final responsibility for proper application and use of our products rests with the user. If you have any comments on the Tech Data Sheet, please call 813-248-6191 and ask for Customer Service.
